百度支付接入:

一、所需包介绍:

    1. bdwallet_pay_sdk.rar(百度钱包项目包)

二、接入步骤:

   接入基础包，具体步骤详见基础包文档。

1.   项目导入:

    将 bdwallet_pay_sdk.rar 解压导入到 eclipse 中，并设置该项目为 Library。

2.   商户项目设置依赖 library 包:

    左击商户项目名->Properties 菜单项，设置需要依赖的 library 工程.

3.   配置 Activity:

```
<activity
                    android:name="com.baidu.paysdk.login.LoginActivity"

android:configChanges="keyboardHidden|navigation|orientation|screenSize"
                    android:excludeFromRecents="true"
                    android:exported="false"
                    android:theme="@style/EbpayThemeActivityWelcome"
                    android:windowSoftInputMode="stateHidden" />
            <activity
                    android:name="com.baidu.paysdk.ui.WelcomeActivity"

android:configChanges="keyboardHidden|navigation|orientation|screenSize"
                    android:excludeFromRecents="true"
                    android:exported="@bool/bd_wallet_switch_global_debug"
```

一、所需包介绍

二、接入步骤

```xml
                        android:screenOrientation="portrait"
                        android:theme="@style/EbpayThemeActivityWelcome"
                        android:windowSoftInputMode="stateHidden" />
                    <activity
                        android:name="com.baidu.paysdk.ui.OrderHomeActivity"

android:configChanges="keyboardHidden|navigation|orientation|screenSize"
                        android:excludeFromRecents="true"
                        android:exported="@bool/bd_wallet_switch_global_debug"
                        android:hardwareAccelerated="false"
                        android:screenOrientation="portrait"
                        android:theme="@style/EbpayThemeActivit"
                        android:windowSoftInputMode="stateHidden" />
                    <activity
                        android:name="com.baidu.paysdk.ui.PayResultActivity"

android:configChanges="keyboardHidden|navigation|orientation|screenSize"
                        android:excludeFromRecents="true"
                        android:exported="@bool/bd_wallet_switch_global_debug"
                        android:screenOrientation="portrait"
                        android:theme="@style/EbpayThemeActivit"
                        android:windowSoftInputMode="stateHidden" />
                    <activity
                        android:name="com.baidu.paysdk.ui.PcPwdCheckActivity"

android:configChanges="keyboardHidden|navigation|orientation|screenSize"
                        android:excludeFromRecents="true"
                        android:exported="@bool/bd_wallet_switch_global_debug"
                        android:screenOrientation="portrait"
                        android:theme="@style/EbpayThemeActivit"
                        android:windowSoftInputMode="stateVisible" />
                    <activity
                        android:name="com.baidu.paysdk.ui.PwdCheckActivity"

android:configChanges="keyboardHidden|navigation|orientation|screenSize"
                        android:excludeFromRecents="true"
                        android:exported="@bool/bd_wallet_switch_global_debug"
                        android:screenOrientation="portrait"
                        android:theme="@style/EbpayThemeActivit"
                        android:windowSoftInputMode="stateVisible" />
                    <activity
                        android:name="com.baidu.paysdk.ui.PwdSetActivity"

android:configChanges="keyboardHidden|navigation|orientation|screenSize"
```

```
                            android:excludeFromRecents="true"
                            android:exported="@bool/bd_wallet_switch_global_debug"
                            android:screenOrientation="portrait"
                            android:theme="@style/EbpayThemeActivit"
                            android:windowSoftInputMode="stateVisible" />
                    <activity
                            android:name="com.baidu.paysdk.ui.PwdConfirmActivity"

android:configChanges="keyboardHidden|navigation|orientation|screenSize"
                            android:excludeFromRecents="true"
                            android:exported="@bool/bd_wallet_switch_global_debug"
                            android:screenOrientation="portrait"
                            android:theme="@style/EbpayThemeActivit"
                            android:windowSoftInputMode="stateVisible" />
                    <activity
                            android:name="com.baidu.paysdk.ui.PwdSetAndConfirmActivity"

                android:screenOrientation="portrait"
                android:theme="@style/EbpayThemeActivit"
                android:windowSoftInputMode="adjustUnspecified|stateHidden" />
        <activity
                android:name="com.baidu.paysdk.ui.SignChannelListActivity"

android:configChanges="keyboardHidden|navigation|orientation|screenSize"
                android:excludeFromRecents="true"
                android:exported="@bool/bd_wallet_switch_global_debug"
                android:hardwareAccelerated="false"
                android:theme="@style/EbpayThemeActivit"
                android:windowSoftInputMode="stateHidden" >
        </activity>
```

4. 权限信息:
```
        <uses-permission android:name="android.permission.INTERNET" />
        <uses-permission android:name="android.permission.ACCESS_NETWORK_STATE" />
        <uses-permission android:name="android.permission.ACCESS_WIFI_STATE" />
        <uses-permission android:name="android.permission.READ_PHONE_STATE" />
        <uses-permission
    android:name="android.permission.ACCESS_COARSE_LOCATION" />
        <uses-permission android:name="android.permission.WRITE_SETTINGS" />
        <uses-permission
    android:name="android.permission.WRITE_EXTERNAL_STORAGE" />
```

<uses-permission android:name="android.permission.READ_SMS" />

5. 代码混淆:

```
-keep class com.baidu.** { *;}
    -keep class com.dianxinos.** { *;}
    -keep class android.support.v4.** { *; }
    -keep public class * extends android.support.v4.** {
    public protected *;
}
```

5. 代码混淆:

```
-keep class com.baidu.** { *;}
    -keep class com.dianxinos.** { *;}
```
